Applied Standards for Offset Project:

ISO 14064-2; Basis: CarbonFix

Compensation Measure:

Carbon sequestration by sustainable afforestation
in Prata, Brazil

CCF Accounting Period:

01.04.2013—31.03.2014

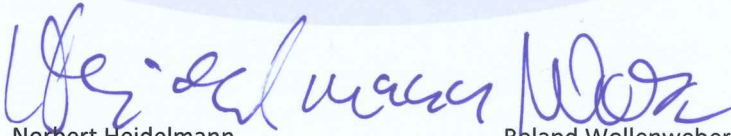

Offsetting Methodology:

Direct Compensation

Certificate valid until:

31.03.2016

At its worldwide located production facilities the company **Faber-Castell AG** sustains a carbon neutral status. In this context all CO₂ emissions are considered which are accruing from direct energy consumption (Scope 1) and indirect energy consumption (Scope 2), as well as emissions caused by the transportation of persons and goods (Scope 3). All those accounted and verified CO₂ emissions are compensated by Faber-Castell through sustainable afforestation measures in Prata, Brazil. Herewith TÜV Rheinland ensures that through these afforestation measures the amount of enduringly sequestered carbon is equal or higher than the CO₂ emissions caused by the worldwide located production facilities of Faber-Castell AG.
